Galvalume®

Many Factors in Choosing the Right Metal

Salt Air

Weather

Durability

Style

Lifetime Cost

There are many factors you should consider in deciding on the type of metal roof that fits your needs. Island Metals is here to help that decision easier with all of the supplies you'll need for a beautiful and long lasting roof

TYPES OF METAL ROOFING FOR ISLAND METALS

Salt Air

Weather

Durability

Style

Lifetime Cost

Copper

No rusting/corroding, lightweight, can be installed near the ocean. Most versatile metal

100+ Years;
not coated

Standing Seam is most common; patina's over time

Most expensive but it lasts 100+ years

Aluminum

No rusting/corroding, lightweight, can be installed near the ocean. Expands/contracts more than the other metals

50+ Years
Can dent; coated/painted

Standing Seam is most common; many paint colors

Moderate expense for 50+ years

Galvalume®

Eventually will corrode, heavy duty, can NOT be installed near the ocean (<1 mile)

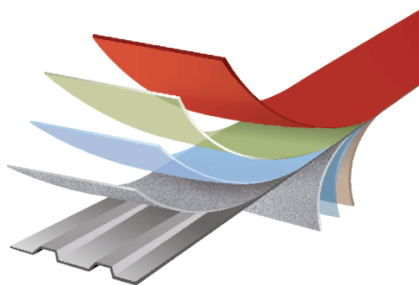

30+ Years
Not easily dented; coated/painted

Standing Seam, PBR, Corrugated; many paint colors

Least expensive
